> It is the first time I have seen mentioned a feasibility study to relocate the leisure centre. With the thousands of new homes in Wealdstone I am amazed this would be considered - it is a very accessible and popular location and is consistent with Byron recreation ground being a hub for recreational activities....losing it would be a disaster for the local area.

I am not sure why some parks have been given the status of MOL vs DOS but both should have the same protections. Byron park is the only park in Wealdstone and should be protected from over development to keep the area liveable (especially with the thousands of extra homes being built) - the community needs a place to escape and allowing 12 storey tower blocks next to the park will harm the environmental character of the park and would be inappropriate.

> There is no mention of improving transport connections around London from Harrow and Wealdstone station. When the area was designated an opportunity area there were promises of Crossrail stopping at H&W and everything was very optimistic. Trains going to Euston are packed during rush hour and people often cannot get on - these need to be more frequent. There is still only 1 train per hour to Clapham / west London. There seems to be no thought around improving Harrows links to massive development opportunities in Old Oak Common...despite a train line from H&W almost going through the new HS2 station. The connectivity potential of H&W seems to be recognised but this section of the plan appears to have had very limited thought / ideas / energy.
